OBJECTIVE

Motivated Computer Science undergraduate with strong technical and problem-solving skills, seeking opportunities to leverage my expertise in AI/ML, web development and programming languages to contribute effectively to innovative projects.

EDUCATION

B.Tech in Computer Science and Engineering Aug 2023 – Aug 2027
Guru Gobind Singh Indraprastha University, Delhi
Current CGPA: 9.27

Higher Secondary, 12th 2023
Greenfields public school, Delhi
Percentage: 85%

SKILLS

Programming Languages:	C, C++, JAVA, Python, JavaScript
Frontend Technologies:	HTML, CSS, JavaScript
Developer Tools:	VS code, Google Colab, Git, Github
Technical Skills:	Web Development, AI/ML, Data Structures and Algorithms
Soft Skills:	Problem-Solving, Team Collaboration, Time Management
Languages:	English (Fluent), Hindi (Fluent), French (Basic)

WORK EXPERIENCE

Shell India pvt. Ltd. & Edunet Foundation – AI/ML internship Aug 2025- Sep 2025

- Developed a Water Quality Predictive Analytics Web application using machine learning Algorithms.
- Managed full-cycle development, from data preprocessing and feature engineering to deploying the final model for real-time interactions.

PROJECTS

LeafLens – Plant leaf Disease Detection System

Developed **LeafLens**, an AI-powered web application for plant disease detection using image classification. Implemented a CNN-based model with Python and deployed it using Streamlit for real-time

GiveLife – Organ Donation & Matching Platform:

Designed and developed a full-stack web platform for organ donor-recipient matching using Artificial Intelligence. A digital platform to streamline organ donor registration and recipient matching, enhancing efficiency in life-saving transplants. Integrated secure data handling, real-time matching algorithms, and user-friendly interfaces for donors, recipients, and medical staff.

GrowWise – Smart Crop Advisory System

Developed an AI-based crop advisory platform that predicts suitable crops using temperature, soil type, rainfall, and humidity data. Integrated fertilizer recommendation features and a chatbot to provide real-time agricultural assistance and decision support.

CERTIFICATIONS

Infosys Springboard

Completed 15+ Courses in Specialized domain Such as Deep learning, NLP etc.

Tata -Forage

Earned a Certification on Gen AI powered Data Analytics Job Simulation

EXTRA-CURRICULAR ACTIVITIES

- Participated in hackathons such as Build with India, GFG HackFest, Adobe India hackathon, CodeSlayer(NIT) etc. Gaining hands-on experience in collaborative and fast-paced environments.
- Attended Workshops based on Web developments, Data Analytics etc.
- Engaged in web dev and ML related projects, enhancing technical proficiency and teamwork capabilities.
